

EMN104-ACX

10.4 inch ELITE PI® Standard

ELITE PI® Standard

10.4 inch Elite PI® Standard

The MICRO COMM® Elite PI® Standard is the entry level platform for a property looking for something more than just a typical position indicator. With a full 256 color TFT screen, the Elite PI® Standard can be customized with your properties logo or an image of the building. This position indicator is capable of relaying information to passengers regarding the elevators current position and direction, arrival arrows, along with priority messages from the controller. It's also designed to be a destination type display showing floors served when in destination mode. These units also have a non-movement selectable time blanking to help preserve backlight life. The Elite PI® Standard doesn't support custom customer messages; for custom content management on the display, choose the Elite PI® PRO product line.
