## 10.4" MAX DISPLAY SERIES

# MAX BANK SERIES

## 10.4" MAX DISPLAY

The Max is a flexible information indicator which can be customized for any building or corporation. This customization can reflect architectural elements, color schemes, with a full color TFT screen and corporate identity. Within this customization, information can be presented to passengers regarding the elevators current position and direction.

It can also support up to 5 messages per car and up to 4 messages per bank.

Inputs from keyswitches are supported via the same twisted pair or two twisted shielded pair wiring.

### TYPICAL APPLICATIONS:

- > Lobby Panel
- > Fire Command Panel
- > Security Panel

### FEATURES:

- > Self Testing
- > Low Voltage
- > USB Updatable
