

YOUR CUSTOM SCREEN DESIGN STARTS HERE

- To ensure we create a design that aligns perfectly with your vision, we have developed a brief yet essential questionnaire. This will help us tailor the initial screen to your preferences as closely as possible.
- If you have any graphic assets, such as images, logos in vector format, color palettes, or typography, please share them with us.
- This information will enable us to craft a design that complements your overall aesthetic.
- If you encounter any questions you cannot answer, feel free to provide a description at the end of the questionnaire.
- Your insights are invaluable, and we appreciate your collaboration in this process.

** Radio buttons are required fields, and they must pick an option.*

Customer's / Project name:

Date:

Choose the position of the buttons and the image/texture/graphic.

The overall design is contingent upon the total number of floors and the graphics included. Should you wish to utilize a particular image or graphic, kindly submit it in a high-resolution format.

The minimum specifications are 1080 px (W) x 1920 px (H).

Buttons on the LEFT

Buttons in the CENTER

Buttons on the RIGHT

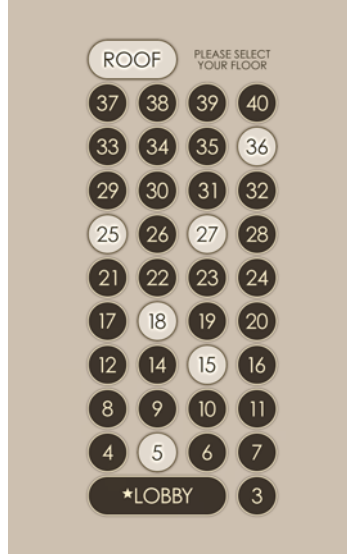

Touch-screen graphic frame.

In certain instances, it adds depth to the overall appearance of the screen design.

WITH the frame

WITHOUT the frame

Enter the number of buttons/floors:

Enter the number.

Is there anything specific on a certain floor?

For example, fitness, casino, bar, etc. on floor 5.

Specify the shape of the buttons.

If you wish to create a custom button design, kindly share an image or a description with us.

SQUARE

ROUND edges

CIRCLE

Samples of button descriptions.

Sense of the Depth

In certain situations, the perception of depth significantly impacts the overall appearance and functionality of the touch screen.

FLAT

3D/Depth

When it comes to digital and print marketing, design is everything.
Alongside your engaging designs, easy to read fonts are essential for your messaging.

If you possess a corporate font or a particular typeface that you utilize, kindly share it with us.
Alternatively, you may allow our expert team to select one for your design.

Font Family in use:

Please specify any additional requirements regarding the screen design.
